Transfer Tape

WE HAVE WHAT YOU NEED!

When you need transfer tape, we have what you need- paper, clear, clear with a grid or clear with a grid and liner. All of these are perfect for your favorite craft projects.

Paper - Our paper transfer tape gives you the dependability you need for all of your projects.

Clear (C3) - Our clear transfer tape is the best and easiest to use in the craft market. Because it is clear, you can see exactly what you are doing when you apply your graphics, making every application perfect. You can also use this transfer tape several times.

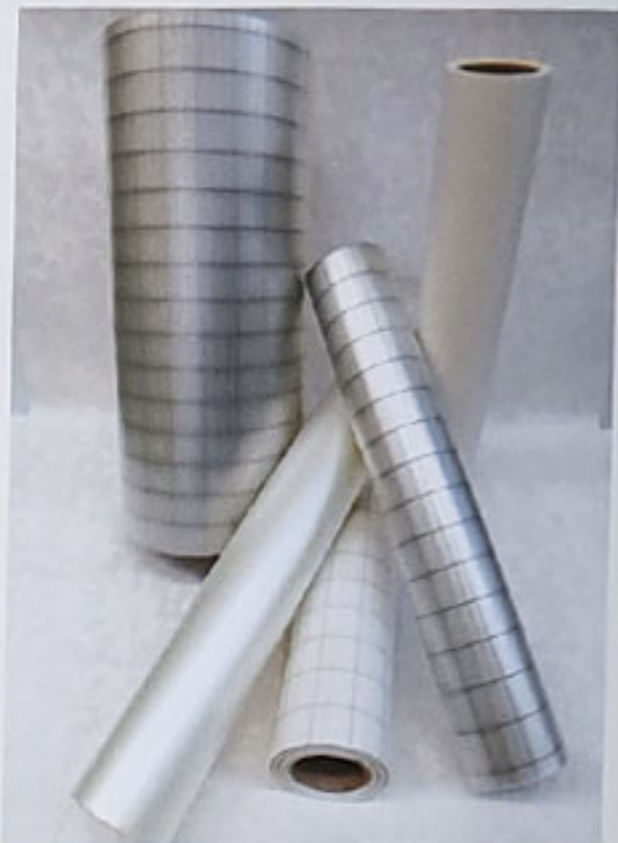

Clear with A Grid (C5) - This is our same great clear transfer tape, but with a grid to help keep things straight. When you are working with small designs and inlays, this product may save the day.

Clear with a Grid and Liner (C7) - Again, this our same great clear transfer tape with a grid, but with a high-quality release liner. This allows you to cut sheets without it sticking to itself. It also makes it easier to share with your friends.

Availability - Our most popular craft rolls are 12" X 30' and 6" X 30' and we sell those by the case lot. We also offer larger rolls, up to 48" X 300'.

In today's changing market, we produce many different custom sizes to accommodate whatever you might need- in all of our great transfer tapes.

Our minimums are reasonable, our pricing is great and, since we convert more transfer tape than anyone, we provide great service.
