SHORT ON CASH?

These Insane Software Savings Are For You!

Here's what we've got:

Flexi Online Subscriptions. Available in **Flexi** (based on Pro) or **Flexi Design**. There are 2 ways to subscribe: Commit to an **Annual Subscription** or on a **Month-to-Month** basis.

Here's what it will do for you:

Save you so much money on **Top-of-the-Line** software, it's absolutely crazy!

Let's do some cash flow math: You can pay \$6395 up front for **FlexiSIGN-Pro**. (Let's round that off to a \$5,600.00 expenditure for the year - NO upgrades included.)

Or you can buy a **Flexi Online Subscription** annual plan - ALL upgrades included (Bug Fixes, New Features, New Printer Drivers, New Cutter Drivers, Import Filters, etc.)

Breaking it down, the **Flexi Online** version, based on Pro, costs you just **\$49.95 /month**. \$50 X 12 months means **you'll spend only \$600 for your software over the same year**.

This saves you \$5,600.00 on **Flexi** for the year, freeing up much needed cash for other important expenditures! In reality, it's much more, given that you never have to dig deep for important upgrades. At some point it always becomes necessary to upgrade, which normally averages between \$300 and \$400 extra per year.

Divide \$6000 by \$600, and you'll also notice that **it'll take you more than 10 years to spend the same amount of money on your Flexi Subscription** that you would have spent up front on the non-subscription, no-updates-included version! This makes excellent cash flow sense.

Here's what you want to do next:

Check our website, call us, email us, fax us. Get all the info you need, then crunch the numbers yourself. Running a profitable business is always about cash flow, and a **Flexi Subscription** offers a two-fold benefit. It frees up cash for other much-needed expenditures and it allows you to get started with the industry's leading software, minus an initial large cash outlay.

Once you're convinced, contact SignEquip to order your **Flexi Subscription** now.

Helping sign manufacturers to maximize their business success.

New Accessories

“Need blades? You’ll find them for most brands of vinyl cutters at SignEquip.”

YelloBlade - Orange

Your best choice to make removing vinyl graphics fast and easy.

\$6.97

YelloBig Squeegee w/White FeltPad

This is a large, 12", plastic squeegee with a white felt pad for smooth, non-marking application of vinyls.

\$24.97

BodyGuardKnife

Makes it fast, easy, and safe to cut through only the paper backing of a self-adhesive vinyl. It has a solid steel shaft, and protects your graphics and delicate surfaces with a special teflon contact strip.

\$59.97

BodyGuardDuo

This is the deluxe version, featuring a larger "bike grip-like" handle, as well as an adjustable blade bracket, which allows you to choose the cutting direction: "push to cut" or "pull to cut".

\$99.97

LongReach Duo

Makes trimming a 60" wide piece of vinyl fast and easy. Equipped with amazing **BodyGuardKnife** cutting head, so you can cut through vinyls or just the liner. Adjustable for "push" or "pull" cutting directions. Available in 60 cm. (24") and 90 cm. (36").

60 cm: \$99.97 90 cm: \$119.97

CutCoaster with Safety Ruler

The CutCoaster glides along a groove on the ruler, providing a straight cut with very little effort. Blades are double-sided for longer use, and simple to remove for replacement. Includes 1 blade.

Safety Rulers come in two sizes: 55" or 80".

w/55" Ruler: \$169.97

TimberMaxx Squeegees

These are light-weight, but super-solid, oversize signmaking squeegees. A steady laminated wood base provides a torsional stiffness. It's perfect for window applications, tinting, and for all even surfaces.

18.5": \$69.97

30": \$99.97

4 sizes: 18.5", 26", 30", 39"

Two more sizes available. Check our website or call us for prices.

Half Moon Felt Blocs

Easy to handle, high performance half moon shaped felt squeegees for safe application of your prints without stretching, creasing, or scratching on all types of surfaces. Two hardness choices - 0.50 g/cm³ or 0.55 g/cm³.

Choose hardness .50 or .55: \$9.97 each

YelloBrush

This is a rivet brush and a popping tool. Extra convenience to speed up the job when applying vinyl over rivets.

\$29.97

JanusWeeder II

This gives you a high quality mini knife and a bubble popper in one handy little tool. Two tools for the price of one.

\$34.97

Do You Hate Your Laminator?

What If It Was More Than Just a Laminator?

*According to Darwin Marshall, All Color Signs, Graphics & Decals, The Pas, MB,
 "...it is possible to push material through at an incredible rate.
 The Ezy Taper® is designed from scratch for the sign industry....
 As far as I have found, anything that will fit between its rollers
 can be stuck together, or even taken apart..."*

*"We used to spend an 8 hour day applying double-sided
 tape and (application fluid) to approximately 50 small signs
 ...now we can put the same amount through the Ezy
 Taper® in less than 20 minutes DRY!" says Devo at Pitt and
 Co (Aust) Pty Ltd,*

The **Ezy Taper Applicator** is everything a sign business could want. It was designed by a sign fabricator, who was unhappy with his laminators too. *And he tried them all!*

Ezy Taper's operation is completely different from all other laminators! Unlike other laminators, which are modified from original paper laminating technology, **Ezy Taper** was created from the ground up to make signs easily and flawlessly. **NO bubbles, NO stretching, and NO misalignment!**

In minutes, sometimes only seconds, you can switch from laminating to print mounting, to transfer tape application, to background coating. You can even apply vinyl graphics, pull the backing sheet off Dibond, **and more!**

It's super fast! It's more than just a laminator! And it's always a one-person operation, even for 5'x10' sheets or a full roll!

Ezy Taper® Deluxe Package

Stand is different than illustrated. Ezy Taper applicator is exactly as shown.
 Includes 60" Ezy Taper® w/ 30mm (1-1/4") mount opening & Basic Stand

NEW Summa DC5sx Printer-Cutter!

\$19,997 CAD

Includes FREE Shipping, FREE Training at our depot, & Unlimited Tech Support.

Resin ribbon printing can last outdoors for up to 5 years without lamination. One single machine will deliver durable full colour and accurate contour cut graphics with the ability to cut completely through the material. The automatic resin ribbon changer can combine process colours, a wide range of spot colours, mirroring metallic foil, holographic foil, and white printing for high-profit graphics that only thermal transfer printing will provide. Moreover, thermal transfer printing is currently the most environmentally-friendly method on the market. There is no chemical waste, no VOC's (Volatile Organic Compounds) exhaust or noxious solvent fumes that could entail any health risk.

Check out the amazing demo video on our website!
